

Sink into a sharp Ping

Use a glass, a bell or a metal lamppost to create a sharp, loud „Ping“ that keeps sounding. Let yourself and the world sink into the vanishing sound.

Sink into a sharp Ping

Find things which create a sharp, loud, high and sounding „Ping“, which vanishes only slowly. Spoon and glass, small beel, bolder and lamppost work well but you can find something everywhere. Sometimes a sound even finds you, if you listen carefully. Let the „Ping“ sound and jump into the sound waves. Let yourself and the whole world sink into the sound and vanish together with it.
